DEPARTMENT OF
ENVIRONMENTAL MANAGEMENT
OFFICE OF LAND QUALITY

Subject: Second Notice of Comment Period

Dear Mr. Pittman:

1. A person purchasing by transfer of ownership of a CFO should be required to meet the Good Character rules.
2. Public hearings are very important to our life style and should be continued in the rules.
3. Any CFO that has a discharge into waters of the State should be required to Enter the CAF/CAFO program.
4. Operators should be required to submit reports on manure applications to IDEM at least twice a year. Operators would identify their land application sites and in December they would report where, when, and how much manure they apply. This information should be posted to the VFC.
5. Your wording mentions professional engineer. Engineers should be required to be licensed in the State of Indiana.
6. We agree with the new rules that waste/manure cannot be applied kto frozen or show covered ground and/or saturated ground. We also agree that no application on acreage with a phosphorus level over 200ppm.
7. Setbacks are not sufficient from property lines and public roads.

Jim and Jean Hagler
